CYBER ESSENTIALS CERTIFICATION PACKAGES

Secure your business. Show your clients you're serious.

Fast-track your Cyber Essentials certification with expert support and zero stress.

What Is Cyber Essentials?

Cyber Essentials is a government-backed certification that shows your business takes cybersecurity seriously. It protects you against the most common cyber threats, and proves it to clients, insurers, and partners. Marshall's Cyber Essentials Certification Packages guide you through the process, plug any gaps, and help you pass with confidence , whether you're going for **Cyber Essentials** or **Cyber Essentials Plus**.

Why It Matters

Win Client Trust

Many organisations now require Cyber Essentials for contracts, especially in public sector or supply chains.

Improve Your Defences

The five key controls reduce risk from 80% of the most common cyberattacks, including ransomware and phishing.

Access Lower Insurance Premiums

Certification can reduce your cyber insurance costs , and some policies require it.

Who Is Marshall?

Marshall has supported creative businesses since 2009, combining strong cybersecurity with smart, flexible tech for modern teams.
