IT EQUIPMENT

The right tech, ready to go...

Professional-grade devices and setup support, tailored for creative teams.

What Is IT Equipment Provisioning?

Our IT Equipment service supplies your business with high-performance hardware that's fit for purpose, from powerful Macs and PCs to monitors, accessories, and creative tools.

Whether you need new kit for a growing team or urgent replacements after a fault, we source, configure, and deliver equipment fast, with everything set up and ready to plug and play.

Why It Matters

Fit for Creative Workflows

We recommend devices that can handle your workload, from 4K video rendering to CAD and design suites.

No Downtime, No Delays

Fast delivery, expert configuration and seamless handover means your team stays productive without tech headaches.

Lifecycle Management

We track warranties, handle upgrades, and dispose of old equipment securely, saving you time and hassle.

Who Is Marshall?

Marshall has supported creative businesses since 2009, combining strong cybersecurity with smart, flexible tech for modern teams.
